

Risk It Spring Challenge 2016 Evaluation Report

Number of schools taking part: 6

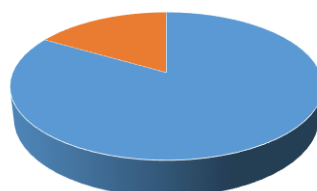

Number of teachers completing evaluation: 6

Did your students enjoy the in-school challenge and final event?

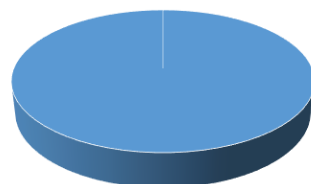

ACTIVITY OUTCOMES How well did the activity support the following aims:

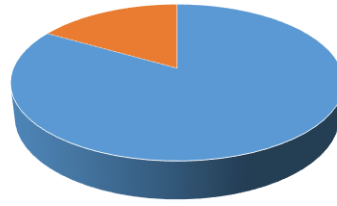

Develop students' awareness and interest in engineering and technology

Support your students' practical skills development?

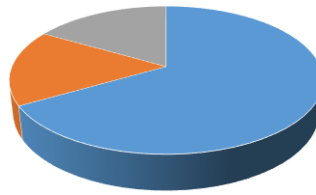

Allow students to engage with ideas, challenges and applications from the world of work:

- Excellent, met target very well
- Good, met target well
- Fair, partially met target
- Poor, did not meet target well
- Valueless, did not meet target

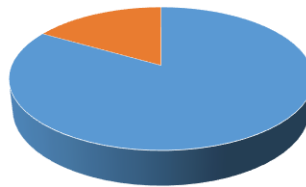

Develop students' enterprise skills e.g. team building, creativity, presentation skills, financial capability:

- Excellent, met target very well
- Good, met target well
- Fair, partially met target
- Poor, did not meet target well
- Valueless, did not meet target

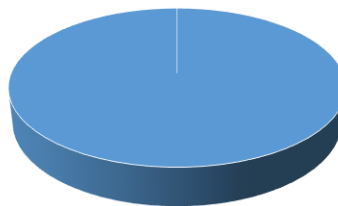

QUALITY ASSURANCE

How would you rate the quality of the information you received prior to the event?

- Excellent, met target very well
- Good, met target well
- Fair, partially met target
- Poor, did not meet target well
- Valueless, did not meet target

How would you rate the service you received on the days?

- Excellent, met target very well
- Good, met target well
- Fair, partially met target
- Poor, did not meet target well
- Valueless, did not meet target

Teachers' Comments

Fantastic in school event. Couldn't be better. The design brief/problem was too broad at the Detling event.

I am so pleased that we took up the opportunity to participate in the challenge in school and were able to attend the final. We would look to do it again in future years

Impressed with the organisation and the quality of those presenting the workshops. It was beneficial for the students to meet those involved in apprenticeships and able to talk about their experiences.

My only quibble is using chocolate as prizes - I know it's an 'easy' and inexpensive option, maybe a gift card??

MEBP did an amazing job, thank you all

The challenge gave the students a valuable learning experience we can't give them in school. Thank you.

What a great idea to do this for a one off challenge

Students' Comments

All our students had a great time and learnt loads.

Please keep us informed of your next projects.

All those taking part in both workshop and final were pleased they had the opportunity to take part and found each part engaging enough to work through breaks and lunch.

One of our finalists commented that she now thought being an architect 'designing buildings' would be a career option.

And I thought it was going to be a day off school and now my brain hurts! Heard on the van ride home.

Great fun! Really hard working against Y11s (our Y8 students).

Our students were buzzing all the way home
